WORK EXPERIENCE

MAK Consulting Group

Senior Programmer Analyst / Team Lead | January 2021 – Present

Programmer Analyst | January 2017 – December 2021

- Designed, estimated and developed new features for a major enterprise software solution using Angular, AngularJS, C#, .NET Web Services, SQL and GIT
- Created a professional development program to improve the developer's baseline knowledge as we transitioned MAK's global solution from AngularJS to Angular
- Built and communicated with RESTful API's that served data to the front-end based on dynamically chosen user inputs
- Developed new processes for increasing efficiency when identifying and resolving issues in live implementations of the global enterprise software solution
- Scrum Master, lead a team of 8-10 developers through 2-week agile sprints using Azure DevOps
- Responsible for ensuring deliverables are feature complete, on-time and meeting client expectations by demoing to stakeholders on a bi-weekly basis

Mohawk College

Part Time – Contract, Professor of Software Engineering | September 2021 – Present

- Delivered Web Technologies courses which included coursework on: NodeJS, VueJS, JavaScript, Bootstrap, ReactJS, Redis, React Native and WordPress
- Created and planned course content in the form of Kahoots for weekly lectures
- Performed assignment evaluations based on course content

- Supervised and offered guidance for students' technical assignments

iDeaWorks Mohawk College

Software Developer | January 2015 – December 2016

- Researched, designed and developed a responsive web application using ASP.NET MVC
- Guest speaker at eHealth 2015 Conference and 2016 Apps for Health
- Worked closely with MedicAlert to develop a solution using JavaScript and .NET libraries utilizing the FHIR standard
