**Other:** JSON, XML

## WORK EXPERIENCE

### MAK Consulting Group

*Software Development Manager | January 2023 - Present*

*Senior Programmer Analyst / Team Lead | January 2021 – December 2022*

*Programmer Analyst | January 2017 – December 2021*

- Lead a team of 12+ developers and quality analysts through 2-week agile sprints using Azure DevOps
- Designed, estimated and developed new features for a major enterprise software solution using Angular, AngularJS, C#, .NET Web Services, SQL and Git
- Built and communicated with RESTful API's that served data to the front-end based on dynamically chosen user inputs
- Simultaneously managed the team developing MAK's largest client's global solution while developing and managing three additional projects interfacing with PLCs or external software
- Requested by the client to travel on site with them to support live implementations of newly developed features/released versions
- Created a professional development program to improve the developer's baseline knowledge as they transitioned MAK's global solution from AngularJS to Angular
- Developed new processes for increasing efficiency when identifying and resolving issues in live implementations of the global enterprise software solution
- Key contributor in hiring, interviewing, onboarding and quarterly and annual review processes

## **Mohawk College**

*Part Time – Contract, Professor of Software Engineering | September 2021 – April 2023*

- Delivered Web Technologies courses which included coursework on: NodeJS, VueJS, JavaScript, Bootstrap, ReactJS, Redis, React Native and WordPress
- Created and planned course content in the form of Kahoots for weekly lectures
- Performed assignment evaluations based on course content
- Supervised and offered guidance for students' technical assignments

## **iDeaWorks Mohawk College**

*Software Developer | January 2015 – December 2016*

- Researched, designed and developed a responsive web application using ASP.NET MVC
- Guest speaker at eHealth 2015 Conference and 2016 Apps for Health
- Worked closely with MedicAlert to develop a solution using JavaScript and .NET libraries utilizing the HL7 FHIR standard

## **EDUCATION**

### **Advanced Software Engineering**

*Mohawk College | December 2016*

Graduated with Honours

- Related coursework: ASP.NET, VB.NET, HTML, CSS, PHP, JQuery, Java, C#, SQL, Oracle, JavaScript, JSON, XML, VNA, Oracle
- Dean's Honour List Semester 2, 3, 4, 5, 6
- Movers and Shakers Award, 2015
